PROFILE

Motivated and dedicated web developer with a proven track record of designing and implementing innovative web solutions. I possess a strong foundation in both front-end and back-end technologies, showcasing expertise in crafting responsive, user-friendly interfaces that significantly enhance the overall user experience. My skills and results-driven approach contribute to creating visually appealing and intuitive websites.

EXPERIENCE

Travel Vaidya   **June 2023-Jul 2023**

Web Developer Intern

- Spearheaded a comprehensive transformation of the company's website, originally built on WordPress, by migrating it to a more robust and customized solution using Django and MySQL.
- Explored cloud solutions and attempted deployment on AWS and Azure, showcasing adaptability to diverse hosting environments.

Dev Sanskriti Vishwavidyalaya   **Apr 2022-May 2022**

Web Developer Intern

- Developed content management systems (CMS) for various departments at DSVV, utilizing core PHP and MySQL, to streamline data management and enhance operational efficiency.
- Successfully integrated payment gateways into the CMS, facilitating secure and efficient transactions for users.
- Contributed to API development, enhancing the interoperability of different systems and improving overall data flow.

PROJECTS

- OCR: Developed a machine learning model for Optical Character Recognition (OCR).
- RsCurry: Created a platform catering to food blogging and video content sharing.
- travelvaiya: Designed and developed a website for UttarakhandTrips, a travel company.
